

COUNSELOR BIO

**DAVID
BUSKIRK**

I accepted Jesus into my heart around 7 years old at vacation bible school. I always believed in God and Jesus after that time, but I didn't realize how much I needed him on a personal level until middle school. I had had some very difficult childhood experiences that had really beaten me down, but in those years God showed up in my life and made me realize how loved I was by him. His love transformed my view of myself and ultimately my whole life. He delivered me through so much and I have never stopped pursuing him ever since.

I am working at New Life Ranch this summer because I realize how important these middle school and high school years were on my journey with God. I want to be the voice of life and encouragement that I wish someone could've been for me at their age. I want to show them how truly loved they are by God, what a masterpiece they are, and how he wants to speak to them and move in their lives. Hopefully I can show them the accepting, encouraging, life-changing love of Christ and inspire them to pursue God for themselves even more.
