

COUNSELOR BIO

**SYDNEY
HOLDER**

I accepted Jesus as my personal Lord and Savior at my hometown church during a vacation bible school when I was in 5th grade. I grew up going to church but it was only because my parents felt they should be going, and not because they really wanted us to grow a close relationship with the Lord. However, as I grew older I started to feel the pull of Jesus Christ on my heart. It took me a couple years to finally step out in faith and be bold enough to stand up and let my peers know that I wanted to make this important decision in my life. I discussed with an adult about what exactly I thought I was doing so that they could make sure I fully understood. After the discussion, I prayed with the adult then accepted Jesus Christ into my heart and have been growing my relationship with Him ever since. I am working at New Life to have the opportunity to grow young adults relationship with the Lord along with my own personal relationship. I feel like God has been moving in insane ways at New Life Ranch in the past few years and I am working here so that I can experience this movement. There are so many ways to get caught up in today's society but going to a summer camp is such a special way to connect kids with Our Lord Savior while also having a fun, exciting time together. I am so excited for this summer and cannot wait to make so many special relationships form and relationships with the Lord grow!
