

# COUNSELOR BIO

**REBEKAH  
RODGERS**

I grew up in a Christian family and accepted Christ into my heart one night when I was four. I was lying in my bed thinking about God and everything I had learned about Him when I decided to tell Him that I believed everything I had been taught. It was a simple decision which has guided my life ever since.

I am at New Life Ranch this summer because I have immensely enjoyed my time as a camper here during the past several summers and know what a difference it has made on my life spiritually. In seventh grade the desire to be a counselor at NLR began in me and I finally had the chance to be one for the first time last summer. While it was definitely an exhausting experience, it was also incredibly rewarding and I could not wait to be back serving the Lord in this capacity again. I am stoked to share Christ's love with all of my campers and cannot wait to see how He works in all of our hearts this summer.
